

TC200S

IPX4 CE

CONNECT series is a mixed flow inline exhaust fan in various sizes. Specially designed for installing ventilation systems with high pressure, strong airflow and low noise levels.

Energy Saving motor with ball bearing for long time operation. Removable body for easy cleaning, without the need to move the ducts.

Mix Flow Inline Blower CONNECT are powerful enough to ventilate multiple areas with a single unit for one or more rooms of varying sizes

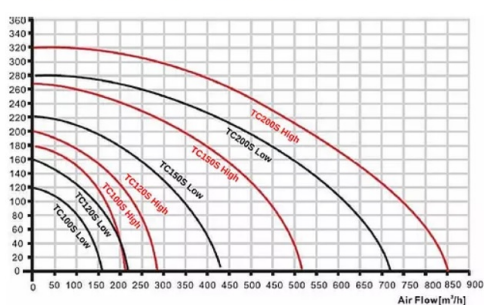

- **Ball bearing motor**
- **Auto cut-off fuse built in motor**
- **Silicon steel lamination**
- **Pure copper winding**

Technical specification	CONNECT TC200S
Voltage (V)/ (Hz)	220 - 240/ 50Hz
Power (W)	120
Air volume Lo/Hi (m ³ /h)	740/850
Noise Level Lo/Hi (dB) (A) 3m	54/ 59
Connection Diameter (mm/ inch)	200/8"
Protection	IPX4
Input/ Output Ducted Diameter (mm)	196 (for 200 mm ducting tubing)
Electrical Classification	Class 1
Indoor/ Outdoor Suitability	For Indoor Use Only
Climatic Classification	Tropical Condition
Gross Size (mm)	310x255x295
Net Size (mm)	296x246x287
Gross Weight (kg)	4.15
Net Weight (kg)	3.66
Speed selector included:	✓
Speeds	2
EAN	5949096154561
